Duet Dance Academy, inc.

Appropriate class attire is necessary for participation in our classes. It is important so the dancer can move freely and the instructor can see the dancer's body alignment to make corrections. Incorrect attire can also become a distraction or safety concern.

If your child is not dressed in dance attire and/or shoes for two weeks, they may not participate.

We encourage dancers to wear something over their dance attire when entering and exiting the building. Dance shoes should not be worn outside.

Note- Dance attire is specifically made for movement classes. It should be made of spandex or another stretchable fabric. Please make sure attire is supportive and appropriate for class.
